

K-Love serves me and my family as an inspiration and encouragement every day as we drive around town. Several times my children are singing positive songs together.

Without KLOVE we would listen to CDs or if we were to listen to radio I am afraid that I would need to keep my finger on the selector ready to change the station depending on the song, DJ comment or commercial.

KLOVE provides a family program alternative that will not be found on any other station. It is critical for the FCC to provide a forum for this uplifting station as a benefit to the public.

Thank You
